**Advertising:** Design, produce and distribute flyers, announcements, and ads; attend community events and ministry meetings; design/maintain website; newsletters.

**Volunteers:** Recruit; train; provide job descriptions and opportunities

Hello! It has been an amazing year in so many ways. We are very grateful you were part of it!

This newsletter is a bit different than those in the past. The GPRC Board of Directors and I felt that you should have more information about what really happens in this Christ-honoring, life-honoring, and person-honoring ministry you all so generously provide for the Goldendale area. Truthfully, our community would not be the same without the GPRC and the services and love we offer.

The abortion industry would like people to believe that pro-life pregnancy resource centers coerce women into having babies and then leave those poor mothers and defenseless babies on their own. The ministry of the Goldendale Pregnancy Resource Center blows that theory out of the water!

You, too, may have wondered how in the midst of all the pregnancy and parenting education, baby clothes and diaper shopping, peer-counseling, referrals to community organizations, and access to internet, fax, or phone services the issue of abortion is being addressed. The facts...

So far, not many women have come in that admit to being abortion-minded. In a small community it is easy to find that we are a faith-based ministry that values lives. And, they want to see how well we love them before they trust us.

So far, none of our ladies have wanted details on abortion procedures - and we don't pressure them. Most are happy to be pregnant but still a bit fearful of what comes next. Some don't know God's Love for them. They don't have a safe place to live, consistent access to food, medical care, a way to provide for their child after it is born, or the nurturance of the community of believers.

So, we pray. We help them evaluate and find ways to meet their needs. When felt and real needs are met, it is easier to fully realize they are carrying a life within them and that they can provide for that life; it is possible to carry their baby to term and to be a good parent, even if that means considering adoption.

Anticipation and excitement mount as they watch and learn about the tremendous blessing and responsibility growing within them!! Dads, too!

Parents write letters to their unborn babies telling them how excited they are to meet them and the hopes and dreams they have.

Hopes for the kind of lives they dream of. The kind of lives God promises when He says, "For I know the plans I have for you, ... plans to prosper you and not to harm you, plans to give you hope and a future."

Thank you for being vessels of HOPE in our community! Lives Matter!

Excited about the coming year! God's richest blessing to you and yours! Sue

Psalm 25:4-7 "Show me your ways, O LORD, teach me your paths; guide me in your truth and teach me, for you are God my Savior, and my hope is in you ..."
