

Dear Supporter,

From our early days above Dr. Ogden's optometry office with one part-time staff person; through 2020 and 2021 when we kept our doors open and served clients while other organizations were closed; to today, housed next to the Nazarene Church with up to four paid staff and serving clients throughout Klickitat County, God has richly provided for the GPRC. Through all those years, our ministry space has been donated to us, but we have now outgrown this location.

With God's leading, the GPRC Board of Directors have determined that the next necessary step to meet the needs of the community, within the scope of the GPRC Mission, is a larger building. They have decided on a property located at 122 W Main Street. It is available at a purchase price of \$180,000 and is in excellent condition. For our purposes, it is move-in ready with only a few small alterations/additions. In seeking the Lord for His continued, unfailing, provision, and to handle all donations in the most judicious way, the board has decided to pursue this commercial property as an all-cash purchase.

Key benefits of this property include:

- Private entry & private rooms for client ultrasound, consultation, and education within the center
- More than 50% increase in ministry space on the main level plus abundant storage and donation processing space on the upper and lower levels
- Building has been checked and is in good condition with a fully remodeled interior
- Great central location accessible to the whole community, increasing awareness of our services with proximity to WAGAP, WIC, and the County Health Offices (community organizations to whom we frequently refer and who also refer to us)

We have already received a private donation of \$50,000 towards the purchase! That just leaves \$130,000 to go. Your donation, joined with others, will enable Goldendale Pregnancy Resource Center to continue consistently providing the light of Christ to our clients and guests and to care for the women and families of our community. (Any donation earmarked for this purchase beyond what is needed will be put in savings toward building maintenance, capital improvements, and necessary furnishings.) Commercial real estate moves quickly here in Goldendale, but the seller has graciously given us this Spring to obtain the necessary funding. Thank you for your continued faithful generosity and prayers.

Karen Austin, Board Chair

Ways to Donate

By check to PO Box 227, Goldendale WA 98620
